DETAILED ACTION

Allowable Subject Matter

1. Claims 1-35 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-35 is the inclusion of the limitations of switching circuitry configured to switch each of the plurality of antenna elements on or off based on control signals; wherein the antenna beam direction is steered in a first direction by switching on a first set of antenna elements, and wherein the antenna beam direction is steered in a second direction by switching on a second set of antenna elements. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
